## **TUFLOW PRODUCTS SOFTWARE LICENSE AGREEMENT** SCHEDULE B (FG-USD): TUFLOW FIXED GRID MODELLING **USD PRICE LIST** 9th April 2024

Please contact sales@tuflow.com for a written quote. To help us assist you, please specify any preferences you have

- Whether a Perpetual, Annual Subscription, Monthly Rental or Cloud Service purchase.
- Lock Type (Hardware or Software).
- License Type (Local or Network) and number of licenses (1, 2, 4 etc).
- Any optional modules (M2D, AD or GPU Hardware) and number of module licenses.

#### **Purchase Options:**

Licenses can be purchased as:

- Perpetual: Indefinite expiry date plus an optional annual software upgrade and support fee.
- Annual Subscription: One year expiry and one year of software upgrades and support.
- Monthly Rental: Rent licenses month by month.
- Cloud Simulation Service: TUFLOW license plus hardware at an hourly rate.

#### Lock Types:

TUFLOW Products are licensed via locks, available in two forms:

- 1. Hardware Lock: Licenses are assigned to a dongle (e.g. USB lock) that can be attached to any computer. Licenses on the Hardware Lock can be updated at any time (for example, to upscale with rental or additional new perpetual licenses).
- Software Lock: Licenses are assigned to a computer. Perpetual License Software Locks have a one-year expiry that are annually updated at no cost. Interim license updates prior to the one-year reset are not possible for Software Lock licenses (for example, upscaling with additional rental licenses is not possible). Software Locks are recognised by the 2017 Release onwards.

#### **License Types:**

- Local License: TUFLOW simulations can only be run on the computer hosting the Lock.
- 2. Network License: The Lock is hosted on any computer (e.g. a server). Other computers check out licenses from the host computer via a company's network. There are no regional restrictions associated with Network licenses.

#### How many simulations can be run at the same time?

The number of licenses reflect how many TUFLOW simulations can be run in parallel at any given time. For example, a Local 4 can run 4 simulations at the same time on the one computer. A Network 5 allows up to 5 simulations at any one time across an organisation's network. If all licenses are in use when a TUFLOW simulation starts, the simulation enters a holding pattern until a free license is available.

#### Are there ongoing costs?

Yes, if you wish to access our support services and keep your perpetual license maintained to access the latest software upgrades and releases, an annual invoice for 15% of the value of your perpetual licenses is issued in June of each year. At the time of the initial purchase, the annual fee is pro-rated to next June.

#### Are discounts available for multiple licenses?

Our price structure heavily discounts purchase of multiple licenses. The more licenses you own, the cheaper the per license rate. In addition, a discount is provided for multiple Local Licenses of the same product by the same Licensee (i.e. one point of contact for all invoicing).

### What TUFLOW functionality is included?

A TUFLOW license is 1D and 2D enabled and includes both an implicit (Classic) and the explicit (HPC) solver. All the 1D and 2D functionality listed below are included with a standard license. Multiple 2D Domains (M2D), Advection-Dispersion (AD) and access to GPU Hardware are not included - refer to the Optional Modules Section for information on these advanced features.

- Unlimited 1D elements, including open channels, structures, Unlimited 2D elements. pipes, pits, and manholes.
- Wide range of structures including culverts, bridges, weirs, gates, pumps and more.
- Advanced stormwater network features for modelling inlet pits, pipes, and manholes.
- Wide range of 1D and 2D boundary conditions.
- Powerful 1D operational controls for structures.
- Expansive model quality control check outputs.
- Wide range of output options, styles and formats.

- TUFLOW Classic's 2D Implicit Solver.
- HPC Heavily Parallelised 2D Solver on CPU (the GPU Module is needed to run HPC on GPU cards).
- Unlimited 1D/2D links for Classic and HPC Solvers.
- 2D direct rainfall functionality and time-varying spatial rainfall inputs (distributed hydrology).
- Several infiltration loss options including Green-Ampt.
- Dynamic embankment breaches.
- Flood evacuation route tracking.

## **TUFLOW Pricing (USD)**

TOT LOW LINGS	10. 10 th 2 mg/m of 1100		
Item	Description	Annual Subscription <sup>13</sup>	Perpetual License <sup>23</sup>
Local Licenses Allows the Licensee to run one simulation per license on the computer with the Lock.	Local 1	\$2,210 (\$2,210 / license)	\$4,800 (\$4,800 / license)
	Local 2	\$3,180 (\$1,590 / license)	\$7,050 (\$3,525 / license)
	Local 4	\$4,140 (\$1,035 / license)	\$9,800 (\$2,450 / license)
	Other	Price upon request	
	The state of the s	·	

For example, a Local 8 allows for up to 8 simulations to be run at one time on a single computer.

**TUFLOW Engine Price** 

<u>Additional Local License Locks</u>: The price for each additional Perpetual Local License Lock of the same product purchased by the same Licensee (i.e. same office and same organisation) is discounted. The largest discounts apply to the cheapest locks. Discount Rate:

- 10% for the 2<sup>nd</sup> Local Lock
- 20% for the 3<sup>rd</sup> and subsequent Local Locks

Network Licenses Allows multiple users and simulations across the licensee's local area network (LAN).

For example, a Network 8 allows for up to 8 simulations to be run at one time on computers connected to the licensee's local area network (LAN).

	Network 1	\$3,220	(\$3,220 / license)	\$7,000	(\$7,000 / license)
	Network 3	\$7,960	(\$2,654 / license)	\$17,300	(\$5,767 / license)
<b>`</b>	Network 5	\$10,900	(\$2,180 / license)	\$24,800	(\$4,960 / license)
	Network 8	\$15,300	(\$1,913 / license)	\$34,500	(\$4,313 / license)
	Network 10	\$17,900	(\$1,790 / license)	\$40,100	(\$4,010 / license)
	Network 15	\$22,500	(\$1,500 / license)	\$51,100	(\$3,407 / license)
	Network 20	\$27,200	(\$1,360 / license)	\$61,200	(\$3,060 / license)
	Network 30	\$36,700	(\$1,223 / license)	\$82,700	(\$2,757 / license)
	Network 50	\$55,700	(\$1,114 / license)	\$125,700	(\$2,514 / license)
	Other	Price upon request			

Additional Locks: Organisations who purchase a Network 20 or greater are entitled to a second Lock to distribute their Network licenses. This provides contingency for host computer outages. Note that a request to reduce the number of licenses on a lock may require the lock to be returned for re-coding as part of a redistribution.

<sup>&</sup>lt;sup>1</sup> Annual subscription licenses are more restrictive than perpetual licenses. New engine and module licenses can only be added annually at the time of the license renewal. Monthly rental license upgrades are not permitted during the period of rental. Annual subscription licenses are not subject to the multi-Local License discounts.

<sup>&</sup>lt;sup>2</sup> Perpetual licenses are the most flexible license type. Upgrades can be made to add new engine and module licenses at any time. Monthly rentals can also be added to periodically up/downscale.

<sup>&</sup>lt;sup>3</sup> Perpetual Purchase from Annual Subscription: If at the end of a subscription period an Annual Subscription is purchased as a Perpetual License, 50% (ex taxes) of the last one-year's subscription fees are deducted from the perpetual license price. This offer is only valid at the time of the annual subscription renewal.

Optional TUFLOW Modules				
Computational Modules				
Quadtree (QT) and Multiple 2D Domain (M2D) Module	Provides access to the TUFLOW HPC Quadtree and TUFLOW Classic M2D functionality. This allows varying 2D cell sizes within a single model.	50% of the equivalent TUFLOW Engine License Price.		
Advection Dispersion (AD) Module	Provides access to the <u>TUFLOW AD Module</u> , for the simulation of conservative constituents. Available for HPC and Classic.	50% of the equivalent TUFLOW Engine License Price.		

QT/M2D and AD Module licenses must be paired with TUFLOW Engine licenses. The number of QT/M2D and AD Modules licenses on a lock can be the same or less than the number of TUFLOW licenses.

#### **Example Module Price Calculation**

Local 4 TUFLOW License + Local 1 QT Module: \$9,800 + (0.5 x \$4,800) = \$12,200

Hardware Modules				
GPU Hardware Module	Provides access to a GPU device for TUFLOW's heavily parallelised HPC 2D Solver for fixed grid and Quadtree meshes, thereby substantially reducing simulation times.	50% of the equivalent TUFLOW Engine License Price.		
	The number of GPU Hardware Module licenses reflects the maximum number of GPU devices that can be accessed by a simulation. Note that for a GPU with dual cards, each card is treated as a separate device.			

GPU Hardware licenses must be paired with at least one (1) TUFLOW Engine license (page B-2). The number of GPU Hardware licenses can be more or less than the number of TUFLOW Engine licenses. For example:

- Two GPU Hardware licenses paired with a single TUFLOW Engine license allows access to two GPU devices on a computer by a single simulation (further reducing simulation times), or
- Two GPU Hardware licenses paired with two TUFLOW Engine licenses will allow two simulations in parallel with each simulation using its own GPU device.

#### **Example Module Price Calculation**

Local 4 TUFLOW license + Local 1 GPU Hardware Module: \$9,800 + (0.5 x \$4,800) = \$12,200

## Monthly Rental Licenses and Conditions

Monthly Rental of Local and Network Licenses is available to existing TUFLOW Licensees.

### Rental Price = R + NL

R = Number of months times 10% of the Perpetual License Price.

NL = New Lock Purchase (if required) of \$200. Hardware Locks may be retained indefinitely for any future rentals or purchases. Software Locks can be recoded for future purchases for the life of the computer. If the rental licensing is to an existing (non-Perpetual) Lock previously purchased by the Licensee, NL equals zero.

#### Note:

- Rental of additional Local or Network Licenses are priced based on the price difference between the Licensee's Perpetual License and the value of the Perpetual + Rental Licenses.
- Local License Rentals are not subject to the multi-Local License discounts.
- Rental of additional Local or Network Licenses are only compatible with existing Perpetual Licenses. They are <u>NOT</u> compatible with existing Annual Subscription Licenses.
- Perpetual and Rental Locks can be attached to the same computer to access licenses from both Locks.

**Perpetual Purchase from Rental:** If at the end of the rental period the Rental License is purchased as a Perpetual License, 50% (ex taxes) of the consecutively accrued rental fees (maximum of 6 months) of R in the Rental Price formula are deducted from the purchase price. Offer valid for 1 month following last rental expiry.

## **Cloud Simulation Options**

#### **Client Cloud Permissions**

## **TUFLOW Cloud Simulation Service**

Organisations with access to Cloud hardware may host Network Licenses within their Cloud domain provided these licenses are only available to users who have access to the Licensee's LAN.

The link below provides a detailed report discussing some benefits, challenges and solutions relating to Cloud computing to help people who are setting up their own system.

Note, rental licenses can be used to up/downscale your license volume on a monthly basis.

Click for further details

BMT offer a Cloud Simulation Service for TUFLOW. For cloud-based simulations, BMT will supply the TUFLOW licenses, provide access to Cloud hardware and run the simulations. This Cloud Simulation Service is quoted at a per hour rate, which varies depending on the license type, hardware selected (CPU and GPU) and order size.

The service is ideally suited to short term bulk simulations. For example, Monte Carlo simulations, where very large numbers of simulations are to be completed within a short timeframe.

Click for further details

# **Annual Software Upgrades and Support Fee**

### Annual Software Upgrades and Support (Maintenance) Fee

The annual software upgrades and support, or software maintenance fee provides access to new releases and software updates. It also grants the Licensee access to software support via <a href="mailto:support@tuflow.com">support@tuflow.com</a>.

The fee is highly recommended for Perpetual Licenses and is compulsory for Annual Subscription Licenses.

For unmaintained Perpetual Licenses a surcharge of 25% on all unpaid annual fees applies should annual maintenance be commenced or reinstated at a later date.

There is no annual maintenance fee applied to monthly rental purchases.

15% of the TUFLOW license value including any purchased modules.

The first instalment is pro-rated to the end of next June using the following factors:

#### Order Date:

Jul to Sep 0.75 Oct to Dec 0.50 Jan to Mar 0.25

Apr to Jun 1.00 (to June next year)

Thereafter, an invoice is issued around June each year to cover software upgrades and support for the next 12-month period from July to June.

Miscellaneous				
Academic License Discount	Licenses and the annual software upgrades and support fee are discounted for academic institutions for non-commercial, educational use.	50% discount on Perpetual and Annual Subscription Licenses		
Upgrade of an Existing License	Additional engine licenses can be added at a later date after the initial purchase. Modules can also be purchased at a later date after initial purchase of engine licenses.  Local Licenses can be converted to Network Licenses and vice versa.  Upgrades can be made to a fully maintained perpetual license at any time. Upgrades to annual subscription licenses only be completed annually at the time of their renewal.  Changes to Locks can be carried out remotely.	The difference in current list price between the two licenses.  The upgraded license(s) value must be of similar or greater value than the existing license(s). No refunds are issued.		
New Lock Purchase	New lock purchase	\$200		
Transfer or Replacement of an Existing Lock	If a Lock becomes faulty through normal use, there is no replacement charge - please contact <a href="mailto:sales@tuflow.com">sales@tuflow.com</a> .	No Cost		
	Damaged Hardware Locks that are returned and need to be replaced.	\$200		
	Software Locks that need to be transferred to another computer.	\$100		
Loss of an Existing Hardware Lock or Transfer of a Software Lock Not Possible	The Licensee is responsible for taking out insurance against the loss, theft or disappearance of Hardware Locks, or if a Software Lock cannot be transferred (e.g. computer is stolen or no longer functional).  The cost to replace a lost or stolen license is equal to the License Fee of the TUFLOW Software payable at the time of the replacement of the lost License Lock.			

This Price List is to be read in conjunction with the latest TUFLOW PRODUCTS SOFTWARE LICENSE AGREEMENT available from <a href="https://www.tuflow.com/downloads/">https://www.tuflow.com/downloads/</a>.

The applicable currency is the currency of the country of the Licensee's invoicing address. TUFLOW Prices are available in AUD, NZD, EUR, GBP, USD, INR and PKR from <a href="https://www.tuflow.com/pricing/">https://www.tuflow.com/pricing/</a>. For countries, whose official currency is not accounted for by these currencies, the AUD rate applies unless otherwise quoted in writing.

Any applicable non-Australian government taxes are the responsibility of the Licensee.

BMT reserves the right to vary the Prices in this Schedule from time to time without notice to the Licensee.
